Tangled Governance: International Regime Complexity, the Troika, and the Euro Crisis

By C Randall Henning

Publisher: Oxford University Press

Recommended by Malcolm

Campbell-Verduyn

At a time of on-going friction between members of the Troika – the European Commission, the European Central Bank (ECB) and the International Monetary Fund (IMF)- assessing how and why this

grouping has remained at the forefront of the Euro Crisis response is more necessary than ever. In *Tangled Governance* C. Randall Henning reveals how the Troika itself has remained at the heart of a cohesive international regime despite significant tensions amongst its members, intense international pressures to combat the crisis and considerable failures in alleviating a continuing instability. Through detailed analysis of more than a half dozen programs undertaken since

played by northern European countries like Germany, as well as non-European countries- the United States in particular- in contributing to an increasingly complex set of new regional and international governance institutions.

*Somalis Abroad: Clan and
Everyday Life in Finland*

By Stephanie R. Bjork

Publisher: University of Illinois
Press

Recommended by H el ene B.
Ducros

In this ethnographic work, anthropologist Stephanie Bjork delves into how the messy notion of clanship intervenes in the individual and community practices of the Somali diaspora

in Finland. She shows that Somalis, although they may contest tribal narratives in public and with outsiders—and even be embarrassed by it-, use clan affiliation as a resource to construct transnational social and cultural capital through relational networks based on kinship and “clan feeling.” She further refines her analysis by providing specific situational examples of the ways in which Somali youth and women perform clan outside of Somalia, navigating an in-betweenness in a host society where Finnish values and social norms may be in tension with Somali rites, taboos, and duty to lineage. Beyond the historical and cultural particulars of the Somali global diaspora, this book provides food for thought for anyone interested in understanding migration experiences in Europe and further.

*Making Gender Equality Happen: Knowledge, Change and
Resistance in EU Gender Mainstreaming*
